

LoCloud

LoCloud Collections Introduction

Marcin Werla

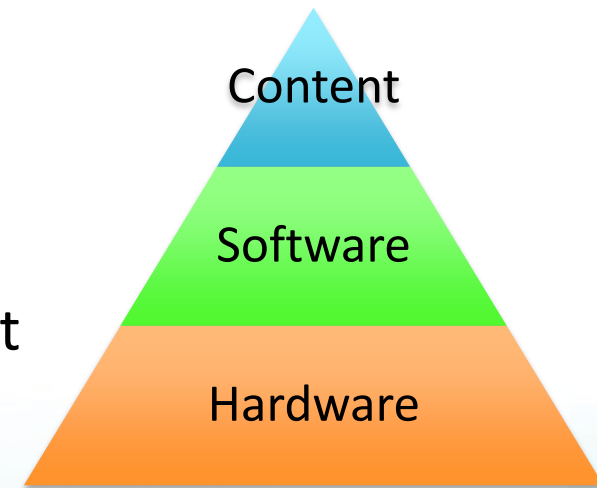

Poznań Supercomputing and Networking Center

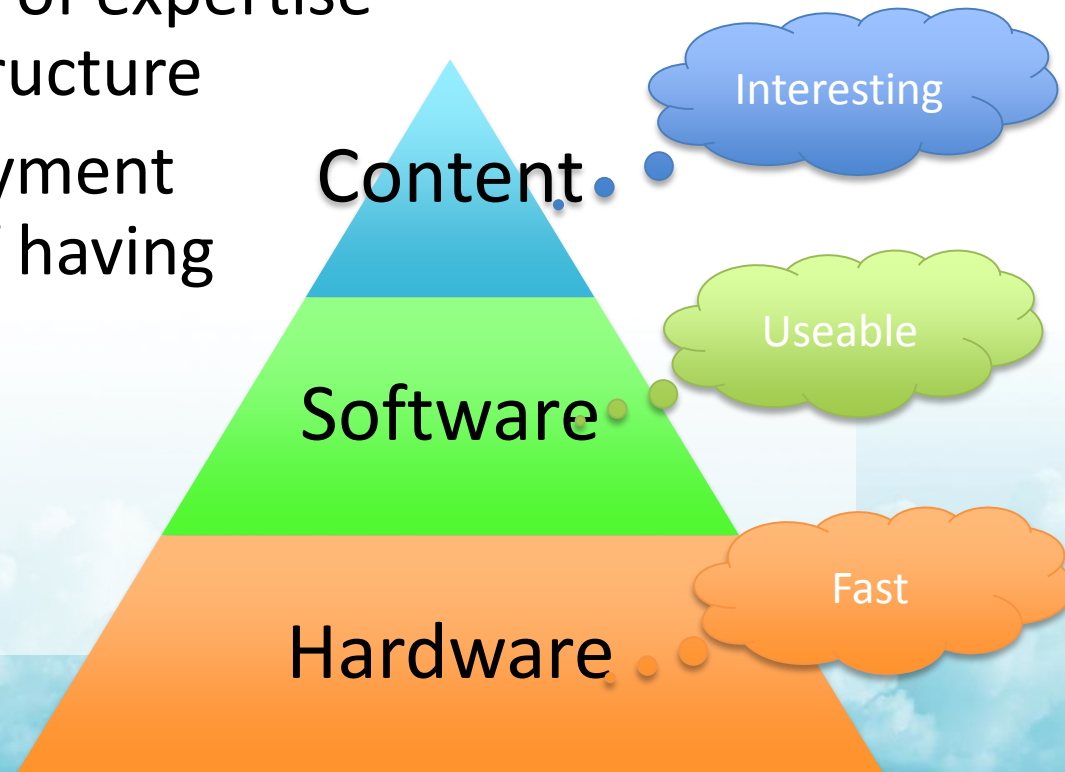

LoCloud is funded by the
European Commission's ICT Policy Support Programme

- Digital content and metadata
- Soft IT infrastructure
 - Software (digital library management system)
- Hard IT infrastructure
 - Service hardware (servers, storage, ...)
 - Network connection and hardware (firewall etc.)
 - ... and a safe and secure place for all that
- People
 - Responsible for digital content and metadata, advanced users of the DLMS
 - Responsible for soft IT infrastructure (admins)
 - Responsible for hard IT infrastructure (admins)

- All mentioned components generate costs
- In smaller institutions there may be no proper hard IT infrastructure to reuse for a digital library
- Apart from costs - lack of expertise to cope with IT infrastructure
- How to simplify deployment and reduce the cost of having a digital library without limiting its **value for end users?**

LoCloud Collections

WELCOME TO LOCLOUD COLLECTIONS

CLOUD FOR CULTURE

Here you can easily set-up your own digital library, museum or archive in the cloud.

Watch about

READ ABOUT
